Dear Hellenic Chamber of Commerce and Association Presidents,

As you know Russia continues to target peaceful Ukrainian citizens and destroy civilian infrastructure. Indiscriminate attacks on innocent civilians constitute a war crime.

Meanwhile according to the Security Service of Ukraine some Greek companies continue its cooperation with the Russian Federation.

The Ukrainian Side calls on to stop cooperation with the country-aggressor otherwise the National Security and Defense Council of Ukraine will be forced to impose personal special economic and other restrictive measures (sanctions) against those companies.

Russia has to pay for this awful war. We are obliged to win the war for the hopes of all nations for a peaceful future to be realized.

Yours Sincerely,

Ambassador

Sergii Shutenko
